## Job Opportunities & Featured Products

### Job Opportunities

Sigler Wholesale Distributors has three Bay Area jobs that we're looking to fill. If you know of somebody who may be a good fit, please contact Jon Malkovich at [jmalkovich@siglers.com](mailto:jmalkovich@siglers.com).

#### Customer Service Rep – San Jose

This person will work with customers by inputting and fulfilling orders placed by phone, fax or email. They must have a positive attitude and show a willingness to do what it takes to get the job done right.

#### Warehouse Administrator – Concord

This person will manage the paperwork in the warehouse, file freight claims and ensure product is delivered on time. They must have excellent computer skills and thrive in a fast paced environment.

#### Operations Manager - Concord

This person will be responsible for managing the warehouse, trucking and customer service teams. They must effectively lead the team to achieve our sales and customer satisfaction goals.

### Boss

What sealant is VOC compliant, paintable with most latex paint in under an hour, non-yellowing, non-staining, comes in a weather resistant plastic tube and cures in wet conditions? There is only one – Boss Multi-Seal!

Every job you're doing comes with dozens of reasons why you need a tube of sealant. So, every time you purchase a furnace or condenser from Sigler Wholesale Distributors in December, we'll give you a free tube of Boss Multi-Seal!

While this promo is limited to ten per customer, you'll want to stock up on other Boss products including expanding foam, hand cleaner, spray glue, firestop, silicone sealant, 4-minute epoxy and more. Check out page 14 of your Sigler Wholesale Distributors Supply and Installation Accessory Reference Guide

## Technical Tips

### Q: What's with these thermostat software updates?

Two of Carrier's Wi-Fi thermostats have recently undergone software changes.

Infinity control software Version 13 was released two weeks ago. For homeowners with Version 10 or above, the control will automatically update via the internet connection. For non Wi-Fi controls, or controls with a software version earlier than V10, software can be updated using a USB flash drive. If you want to update the software on your flash drive, go to [siglernorcal.com](http://siglernorcal.com) and click on the "links" tab. It's always a good idea to have a flash drive in your truck with the current software to avoid potential compatibility issues.

The Côr thermostat also experienced a change in software that you may have noticed. All Côr thermostats at the time of installation, will begin updating to the latest software version within 15 minutes of an initial Wi-Fi connection. This ensures all thermostats have access to the latest software before the installer leaves the home.

Because of this change, we strongly encourage you to set-up the Wi-Fi connection at the time of installation and not postpone it. If you do not have access to the homeowner's Wi-Fi, a mobile hotspot from a phone, tablet, or separate device could be used to download the update.
