One Stop Shopping and New Guides

When the market is slow, it's more critical than ever to ensure you and your team are working efficiently. That's why Sigler Wholesale Distributors is engineered to be your single-source partner for every job, eliminating the time-consuming necessity of running to multiple suppliers. From a full inventory of equipment to the smallest ancillary components, the goal is to stock everything you need to complete installations and service calls efficiently. The Sigler Wholesale Distributors commitment is to get you out, and on to your next job, ensuring your technicians can focus on quality work, not parts procurement.

To further support your efficiency, Sigler Wholesale Distributors has an updated Supply and Installation Accessories Price Guide. This comprehensive catalog details the majority of the products sold – everything from flex, sheet metal, wire, and fittings to chemicals, filters, safety gear, and tools. Having this guide on hand allows you and your team to quickly quote necessary supplies accurately and ensuring that you have everything in your estimates.

Time spent searching for the right accessory part number is money lost. That's why Sigler Wholesale Distributors has developed a comprehensive Quick-Reference Guide specifically for fan coil units. This tool is designed to provide a road map to all available accessories – plenums, downflow conversion kits, filter boxes and more. This guide clearly maps out the exact accessory part numbers needed for every F-series and 45-series fan coil made by Carrier, guaranteeing you pull the correct parts the first time, every time.

With all of the part numbers at your fingertips, a great option becomes online ordering with Siglers.com. Especially useful after normal working hours, you can check inventory and place orders for equipment, parts and supplies. Bypass counter wait times and place orders for local pickup or delivery on your schedule. The tool also allows you to quickly check pricing as some commodity items fluctuate. Save valuable time on administrative tasks and get back to the job site faster by utilizing the power of Siglers.com.

Featured Products

Google Nest offers two tiers that are readily available at Sigler Wholesale Distributors. The Nest Learning Thermostat 4th generation maintains the core “learning” feature which programs itself automatically for peak efficiency and comfort. This model also features Farsight, which lights up the high resolution display to show the temperature, weather, or time as you approach. Two different colors are available, silver (**GGA05169US**) or obsidian (**GGA05560US**) and both have a wireless sensor. Through December 31, 2025, save \$40 when you buy either model as part of a special Nest promotion.

For a more streamlined and budget friendly option, look to the white model, (**GGA2018US**). No special discounts, but it's still a great stat at an affordable price!

For HVAC contractors focused on indoor air quality, Decon7 offers a powerful, EPA-registered solution to enhance your service offerings. Decon7 is a versatile cleaner, sanitizer, and deodorizer that is proven to eliminate up to 99.9999% of harmful pathogens, including mold, bacteria, and viruses, which thrive on components like evaporator coils and fan blades. Incorporating Decon7 into routine maintenance visits provides a significant value-add for your customers, directly addressing air quality concerns by killing organisms at the source.

With a quick application time of about 10–15 minutes, Decon7 creates a lucrative new revenue stream that complements your existing maintenance contracts and solidifies your reputation as an IAQ expert. Try it today with a free kit from Sigler Wholesale Distributors when you buy a full Performance Series two stage or Infinity Series system in the month of November. Ask for the three-part kit, model **8001702-STD-KIT** at purchase.

Technical Tips

Q: Can I get a new piece of equipment when a part is on backorder?

You just called to order a part and were told it is 90 – 120 days out. Now the homeowner wants a new unit! Thankfully, Carrier does have a procedure that can help in situations like this.

Step one is to order the part. Be sure to note the name of the Sigler Wholesale Distributors customer service rep and follow-up with them to request an expedite with the factory. They will provide you with a six-digit number preceded by E-.

Step two is to reach out to the tech support team by texting 415.330.6666. Provide details about the failed unit

and the situation. They will need to confirm that the part in question caused the failure, and this may require another trip to the jobsite for more troubleshooting. Provide the tech support team with the name of the customer service rep who ordered the part and that E- expedite number.

Lastly, we need a little patience. From here, it may take a day or two as Carrier reviews all of the information and makes a determination. No one at Sigler may offer a new unit without all of these details and Carrier's approval. The tech support team is here to help but are bound by Carrier's warranty policy and procedures.
